Patient Safety Zone (Turas)

NHS Education for Scotland’s Patient Safety educational resources have moved to the digital platform Turas, all our materials can be found within the ‘Patient Safety Zone’ [patientsafety.nes.nhs.scot](https://patientsafety.nes.nhs.scot). Please note the QI Hub is no longer available.

If you have any questions, please do not hesitate to contact [catrina.gordon@nes.scot.nhs.uk](mailto:catrina.gordon@nes.scot.nhs.uk).

Enhanced Significant Event Analysis (eSEA) Tools

**The enhanced significant event analysis eLearning module** is a new learning resource designed to help with understanding and application of this systems-based method of analysis. It is now more widely recognised that enhanced significant event analysis, if carried out effectively, can be an important patient safety and educational activity. This short eLearning module, which can be accessed [here](https://patientsafety.nes.nhs.scot), allows you to choose and work through a real-life enacted SEA most relevant to your own working environment hopefully making it seem more relevant to you. The newer tools available to support the enhanced SEA method also include an App on which you can work through and record your own SEA, building the relevant information in bite sizes by saving and downloading the information as you collect it. The enhanced SEA App can be downloaded to your mobile device of choice from think [link](https://patientsafety.nes.nhs.scot).

More information on eSEA can be accessed on [patientsafety.nes.nhs.scot](https://patientsafety.nes.nhs.scot).
Quality Improvement

Scottish Quality & Safety Fellowship Recruitment Open!

Over 200 Fellows have taken part in this tailored programme to enhance their individual capacity for leadership in improvement and strengthen clinical leadership in NHSScotland.

Applications are now OPEN for the 11th cohort of the Scottish Quality & Safety Fellowship programme which will commence in September 2018.

Applications close at 10am on Friday, 16 March 2018 and interviews will be held on Wednesday 27th and Thursday 28th June 2018.

The Fellowship is open to healthcare staff who currently undertake clinical practice and have a direct influence on improving the delivery of safe patient care, as well as staff in clinical professions who do not currently deliver hands-on care but do have a role in improving patient care or safety.

More information on the programme can be found on the Quality Improvement Zone.

Team Scotland Discount Rate - International Forum on Quality and Safety in Healthcare 2018

The International Forum on Quality and Safety in Healthcare 2018 is being held in Amsterdam in early May (2-4 May).

NHS National Services Scotland, Healthcare Improvement Scotland and NHS Education for Scotland have worked collectively to negotiate a 20% discount off the listed price for the 2-day conference fees for Thursday, 4th and Friday 4th May 2018.
Please note that the best price will be if staff register during the **Early Bird period which ends on Wednesday, 7th February**. If you register after that date a 20% discount will still be applied to the standard rate but the cost will be more expensive so encourage your organisations to book prior to the 7th February and take advantage of the Early Bird offer.

The details are as follows:

- To book, go to [http://internationalforum.bmj.com/amsterdam/fees/](http://internationalforum.bmj.com/amsterdam/fees/)
- Select NHS Scotland Attendee category
- The verification code: ImprovementScotland18
- Cost: 20% off 2-day rate = £801.03

**Knowledge Services**

**Current Awareness Bulletins**

Need help to keep up with latest published research? A wide range of *Current Awareness bulletins* are produced on a regular basis by NHSScotland Librarians. You can select from over 40 topics, including Patient Safety and Clinical Governance — for each bulletin you can read past issues and request to be added to the mailing list.

The bulletins include articles from key journals plus reports and research publications from a range of organisations, saving you time by sending the latest information straight to your inbox.

See the [full list](#) or contact Knowledge Services with questions or to suggest a new topic.

**Pharmacy**

**NSAID Communication Care Bundle**

[The Scottish Government](#) announced that pharmacy contractors should roll out the use
of the NSAID care bundle (which was developed as part of SPSP – Pharmacy in Primary Care Collaborative) in community pharmacy practice in an attempt to minimise preventable harm from NSAIDs. For Spring 2018, NES and HIS (representing the Quality Improvement in Pharmacy Practice Collaborative (The QIPP Collaborative)) with support from existing local Quality Improvement (QI) teams, will support the implementation of the NSAID communication care bundle in community pharmacy practice through face to face events and a webinar. These events will help pharmacy teams understand and embed Quality Improvement methodology, utilise the Plan Do Study Act (PDSA) cycles, and apply the concept of care bundles into their own practice.
